5X1X 1. Location:

On the western perimeter of KIEV (30°32'E/50°27'N), Ukrainian SSR, south of the road to ZNITOMIR, east of a road leading to an airfield. Barracks with tank troops quartered in it are northeast of the plant.

2. Installations:

The repair plant covers about 1,500 square feet. It was partly destroyed during the war but reconstructed by mid-1946. Excavation work for an expansion of the plant was started on a site adjoining the plant in the south. The work, which was temporarily suspended, was resumed in late 1947. The foundations of six more workshops were completed in September 1948. The plant has a railroad connection. For plant installations, see Annex.

3. Work force:

300 to 400 Soviets and 140 PWs in each of the two shifts. Starting in September 1948, the PWs were replaced by soldiers.

4. Production:

General overhauling of tractors and minor repairs on tanks.
